Gentlemen,

I have attached a map similar to that which was presented during our Haynesville site visit. In addition, I have provided the GIS data for De Soto Parish oil/gas wells and LA water wells that I retrieved from the Louisiana Strategic Online Natural Resources Information System (SONRIS) (8/12/2011, <http://sonris.com/>) and used in the map. There is a wealth of meta data provided in these data sets, which I was unable to completely depict on the map.

I am also attaching the LDEQ/LDOTD Construction of Geotechnical Boreholes and Groundwater Monitoring Systems Handbook (2000) and the LDNR Advanced Notice of Rulemaking and Solicitation of Comment on Water Well Registration, Construction, and Closure for your reference.

Please let me know if you have any questions.

Thank you,

Chris Hill

which may be a computer program. This attached computer program could contain a computer virus which could cause harm to EPA's computers, network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced into the EPA network. EPA is deleting all computer program attachments sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at (866) 411-4EPA (4372). The TDD number is (866) 489-4900.
